

**MEET
MATRON EDITH
CAVELL
& her faithful
dog/friend Jack**

WW1 nurse & Norfolk heroine, Edith tells how she grew up in Swardeston, near Norwich. She trained at Florence Nightingale's college in London and went on to establish a college for nurses at a hospital in Brussels, Belgium. Through Jack, the friendly dog puppet, children learn about how Edith saved hundreds of allied soldiers when the First World War began and how she was later killed.

Hundreds of children in Yr1,2 and above have been enthralled by Janet's portrayal of Edith & it is a great way of exploring faith, commitment, loyalty, hope, war & remembrance. You can also include Florence Nightingale if you wish, Edith's role model.

Activities for discussion and crafts are provided after this storytelling experience. Lots of artefacts, interactive singing & drama.
