

**Welcome
to a
New Term!**

September 2024

Here at **Journeys for Learning** I am once again preparing inspiring curriculum enrichment, for History & RE learning journeys in schools.

I have some new options for this coming academic year, so do read on, especially if you've never worked with me before. I'm always keen to listen to new suggestions!

NEW... Meet Amy Johnson... A must for your fight/aviation topic at KS1 or 2. They meet Amy in character and explore her pioneering story.

This is fun filled with drama, singing, visuals and storytelling. I love this topic with it's many dimensions.

Meet Grace Darling... Another story of heroism and courage. I love bringing her character to life as we explore life in a lighthouse in Victorian times and her rescues at sea. We also look at the work of the RNLI today. This is fun learning in action!

Summer 2024... I had a busy term and was privileged to work in some great schools in East Anglia, the Midlands, Essex, Gloucestershire, Lincolnshire and Wiltshire. My thanks go out to all schools I worked with.

Highlights were: exploring Florence Nightingale's life, WW2, Mary Anning - fossil finder, a challenging multi faiths & views day & a day spent exploring the nature of evil & suffering in Islam and three other major world faiths.

It has been great to see **Journeys for Learning** expand and spread it's wings into other counties & to work with so many schools & academies. I enjoy working with teachers to plan the content according to their needs & to see how my work stimulates children's imaginations, knowledge, thinking & reasoning skills.

Do get in in touch if you would like to bring something alive in a new & exciting way! All best wishes for the new school year ahead.
